DetailsApplyThe Health Information Coder II analyzes and interprets documentation from medical records and completes accurate coding of hospital-based diagnoses and procedures and professional fee coding of diagnosis and procedures, charge review, E/M assignment and charge router. The Health Information Coder II communicates with providers for missing documentation or questions regarding documentation and offers guidance and education when needed. Individuals in this role may code one time ancillary/series, emergency department, observation, day surgery, and/or professional fee to include evaluation and management (E/M) coding. For professional fee coding, individuals in this role will be proficient for inpatient and outpatient, for multi-specialties. The Health Information Coder II utilizes the International Classification of Disease (ICD-10CM. ICD-10-PCS) and Physicians Current Procedural Terminology (CPT) coding systems and other coding references to ensure accurate coding. Ideal candidates will be proficient in three or more types of outpatient coding and possess a sound knowledge of medical coding rules, regulations, and compliance utilizing ICD 9 or ICD 10. Ideal candidates will also possess strong knowledge of anatomy, physiology, and medical terminology as well as working knowledge of insurance processes and reconciliation regarding the denial process. * Location/Facility - Remote For more information on the facility, please click our Locations link. * Specialty/Department/Practice - HIM/ Coding * Shift/Schedule - Days/ Full Time* Benefits - Our competitive benefits package includes*: * Immediate eligibility for health and welfare benefits * 401(k) savings plan with dollar-for-dollar match up to 5% * Tuition Reimbursement * PTO accrual beginning Day 1 *Note: Benefits may vary based upon position type and/or level. Baylor Scott & White Health (BSWH) is the largest not-for-profit health care system in Texas and one of the largest in the United States.
